Hello Everyone,

As we have been discussing for a couple weeks now, we are entering a time of the year in which we need to double down on our efforts to practice public health guidance (like the three Ws). That may be hard to hear since the response to COVID-19 (March 13) is now over six months old.

What's important is that we continue to think about our own health and safety and, by doing so, one another's health and safety. By protecting yourself and your loved ones, you are protecting your friends, family, and neighbors. Thankfully, if everyone works together, that effort is cyclical.

Thank you for continuing to put your best foot forward in the efforts to provide our community outstanding service. Your work has not gone unnoticed.

### Flu Shot Clinic Adjustments

When you hold flu shot clinics outside to allow drive-through opportunities and to be out in the open air, that means you are susceptible to inclement weather. Unfortunately our Wellness Clinic needed to cancel another drive-through flu shot clinic today. But don't worry—there will be plenty more opportunities to get your free vaccination from the Town.

The Wellness Committee announced today in email the October dates for free, drive-through flu shots. In case you missed the message, I've attached the email.

Thank you for getting your flu shot this year. Health professionals are saying this is the most important year to do so in recent history since we are already enduring a pandemic.
